

# ZONING BOARD OF APPEALS

## **William MacLeod Snaith**

Democratic Party

### **Biographical Statement**

Raised in Weston from 1945 through my senior year at Boston University. Returned in 1982 with my wife and raised our daughter here. My work is residential design, including land planning, construction management and on-site supervision. I joined the ZBA in 1995 and have served as its Chairman for two terms.

### **In your opinion, what is the most significant issue facing Weston today?**

As Weston continues to be built-out, preserving the rural nature and character of the town is important. This does not mean looking back or further restrictions, but rather treating each application with a sensitivity that respects the character of the town and addresses future challenges. The ZBA, in its own limited way, can help maintain the unique character of the town.

### **Why are you running for this specific office and what do you bring to it?**

For many years Weston has been good to our family. I felt I should give back and this service on the ZBA has been tremendously rewarding and I hope helpful.

### **What is the most important issue this board/commission faces and how would you potentially address it?**

I believe my experience and expertise in design and construction make me well qualified for a position on this board.
