In your opinion, what is the most significant issue facing Weston today?

As a newcomer to Weston, I believe a significant issue facing our community is the lack of a community space for residents to meet and interact with each other.

.

Why are running for this specific office and what do you bring to it?

I believe that a city or a town is only as strong as its financial health, and that the wellbeing of our community and our citizens are deeply tied to fiscal responsibility and transparency. I'm running because I think I can bring a fresh perspective, innovative solutions, and a strong track record of fiscal stewardship to the table.

What is the most important issue this board/commission faces and how would you potentially address it?

I think the most significant issue the commission faces is a lack of credibility with a vocal portion of the community. This is a common disconnect in municipal governance and I believe it requires openness and transparency from thoughtful leaders.
